Amaroq Minerals Ltd.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2023 and 2022

(Unaudited, in Canadian Dollars)

1. NATURE OF OPERATIONS, BASIS OF PRESENTATION

Amaroq Minerals Ltd. (the "Corporation") was incorporated on February 22, 2017 under the *Canada Business Corporations Act*. The Corporation's head office is situated at 3400, One First Canadian Place, P.O. Box 130, Toronto, Ontario, M5X 1A4, Canada. The Corporation operates in one industry segment, being the acquisition, exploration and development of mineral properties. It owns interests in properties located in Greenland. The Corporation's financial year ends on December 31. Since July 2017, the Corporation's shares are listed on the TSX Venture Exchange (the "TSX-V"), since July 2020, the Corporation's shares are also listed on the AIM market of the London Stock Exchange ("AIM") and from November 1, 2022, on Nasdaq First North Growth Market Iceland which were transferred on September 21, 2023 on Nasdaq Main Market Iceland ("Nasdaq") under the AMRQ ticker.

These unaudited condensed interim consolidated financial statements for the nine months ended September 30, 2023 ("Financial Statements") were approved by the Board of Directors on November 14, 2023.

1.1 Basis of presentation and consolidation

The Financial Statements include the accounts of the Corporation and those of its 100% owned subsidiary Nalunaq A/S, company incorporated under the *Greenland Public Companies Act*. The Financial Statements also include the Corporation's 51% equity pick-up of Garda A/S, a joint venture with GCAM LP. (Note 3).

The Financial Statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") including International Accounting Standard ("IAS") 34, Interim Financial Reporting. The Financial Statements have been prepared under the historical cost convention.

The Financial Statements should be read in conjunction with the annual financial statements for the year ended December 31, 2022 which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies, methods of computation and presentation applied in these Financial Statements are consistent with those of the previous financial year ended December 31, 2022, except for the policies described below.

a) Investments in joint venture

The financial results of the Corporation's investments in its joint arrangement are included in the Corporation's results using the equity method. Under the equity method, the investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the Corporation's share of comprehensive income or loss of the joint venture after the date of acquisition. The Corporation's share of profits or losses is recognized in the condensed interim statement of income (loss).

Unrealized gains on transactions between the Corporation and a joint venture are eliminated to the extent of the Corporation's interest in the associate. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Dilution gains and losses arising from changes in interests in investments in joint venture are recognized in the condensed interim statement of income (loss).

The Corporation assesses at each period-end whether there is any objective evidence that its investments in joint ventures are impaired. If impaired, the carrying value of the Corporation's share of the underlying assets of the joint venture is written down to its estimated recoverable amount (being the higher of fair value less costs of disposal and value in use) and charged to the statement of income (loss).

There are two main instances when the Corporation recognizes an investment in associate or joint venture. In the first case the entity recognizes an acquisition of new investment, has a significant influence over the investee but does not control it. In the second case, the Corporation loses control over the subsidiary

Amaroq Minerals Ltd.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2023 and 2022

(Unaudited, in Canadian Dollars)

because of the sale of a share in subsidiary that results in losing control over that subsidiary. If the Corporation loses control over the subsidiary, then

- The Corporation derecognizes the assets and liabilities of the subsidiary from the consolidated statement of financial position,
- Recognizes the fair value of the consideration received from the transaction that has resulted in the loss of control,
- Recognizes any investment retained in the former subsidiary at its fair value once control is lost and subsequently accounts for it and any amounts owed by or to the former subsidiary in accordance with the relevant IFRS. The fair value shall be regarded as a fair value of the initial recognition of the investment in the joint venture.
- Subsequently recognizes joint venture's share of net profits or losses proportionately to the retained share of investment for the reporting periods.

b) Nalunaq mine project

Management established that effective September 1, 2023, the Nalunaq Project is in the development phase. Accordingly, all expenditures related to the restart of the Nalunaq mine and the associated development of the initial processing plant and surface infrastructure are capitalized under Construction in Progress within Capital assets (see note 5). Capitalized expenditures will be carried at cost until the Nalunaq Project is placed into commercial production, sold, abandoned, or determined by management to be impaired in value. The mine and mobile equipment, process plant building and the Nalunaq mine are not yet available for use as intended by Management as at September 30, 2023, therefore, depreciation has not yet commenced.

1.2 Functional and presentation currency

The functional and presentation currency of the Corporation is Canadian dollars ("CAD"). The functional currency of Nalunaq A/S and Gardaq A/S is CAD. The functional currency of Nalunaq A/S and Gardaq A/S is determined using the currency of the primary source of economic activity and using the currency which is more representative of the economic effect of the underlying financings, transactions, events and conditions.

Foreign currency transactions are translated into the functional currency of the underlying entity using appropriate rates of exchange prevailing on the dates of such transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rate of exchange in effect at the end of each reporting period. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in the net profit or loss.

2. CRITICAL ACCOUNTING JUDGMENTS AND ASSUMPTIONS

The preparation of the Financial Statements requires Management to make judgments and form assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and reported amounts of expenses during the reporting period. On an ongoing basis, Management evaluates its judgments in relation to assets, liabilities and expenses. Management uses past experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgments. Actual outcomes may differ from these estimates under different assumptions and conditions.

In preparing the Financial Statements, the significant judgements made by Management in applying the Corporation accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Corporation's audited annual financial statements for the year ended December 31, 2022 except for these described below and in note 1.1 b).

Management exercised significant judgement in assessing whether the Corporation still has control over its subsidiary Gardaq A/S or whether it lost control over the subsidiary but maintained significant influence or joint control over Gardaq A/S. The result of this assessment is described under Note 3 below. Estimates

Amaroq Minerals Ltd.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2023 and 2022

(Unaudited, in Canadian Dollars)

and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

3. INVESTMENT IN AN ASSOCIATE OR JOINT VENTURE CORPORATION

	As at September 30, 2023	As at December 31, 2022
	\$	\$
Balance at beginning of period	-	-
Original Investment in Gardaq ApS	7,422	-
Transfer of non-gold strategic minerals licences at cost	36,896	-
Investment at conversion of Gardaq ApS to Gardaq A/S	55,344	-
Gain on FV recognition of equity accounted investment in joint venture	31,285,536	-
Investment retained at fair value- 51% share	31,385,198	-
Share of joint venture's net losses- for 9 months ended September 30, 2023	(5,021,231)	-
Balance at end of period	26,363,967	-

On June 10, 2022, the Corporation announced that it had signed a non-binding head of terms with ACAM to establish a special purpose vehicle (the "SPV") and created a joint venture (the "JV") for the exploration and development of its Strategic Mineral assets for a combined contribution of \$62.0 million (GBP 36.7 million). Subject to the final terms of the JV, ACAM invested \$30.1 million (GBP 18 million) in exchange for a 49% shareholding in the SPV, with Amaroq holding 51%. Amaroq contributed its strategic non-precious mineral (i.e., non-gold) licenses, and will be required to provide a contribution in kind over a three-year period, valued, in aggregate, at \$31.4 million (GBP 18.7 million) in the form of site support, logistics and overhead costs associated with utilizing its existing infrastructure in Southern Greenland to support the JV's activities. The transfer of these licenses has been approved by the Greenland Government on April 13, 2023.

The carrying value of the strategic non-precious mineral licenses transferred to Gardaq A/S is \$36,758 (Note 4).

Upon execution of the Subscription and Shareholders' Agreement ("SSHA") on April 13, 2023, the Corporation has ceased the control of Gardaq on that date. Given that the relevant activities of Gardaq require unanimous consent of its shareholders in accordance with the SSHA, Management has determined that it has joint control and as such the Corporation performed deconsolidation of Gardaq A/S as at April 13, 2023, the date when control was lost. The fair value of the 51% equity investment retained in Gardaq A/S was determined to be \$31,385,198 (GBP 18.7million). The fair value of Gardaq A/S was measured based on the cash consideration received in exchange for 49% of the outstanding shares.

The Corporation has determined that it has a joint control in Gardaq A/S as decisions around relevant activities require unanimous shareholder approval. Effective April 13, 2023, the Corporation's investment was accounted for as an investment in joint venture using the equity method. The equity method involves recording the initial investment at cost and subsequently adjusting the carrying value of the investment for the Corporation's proportionate share of the profit or loss, other comprehensive income or loss and any other changes in the joint venture's net assets, such as further investments or dividends. For the period ended September 30, 2023 the Corporation recorded the 51% proportion of net loss from Gardaq of \$4,866,894.

The following tables summarize the unaudited financial information of Gardaq A/S as of September 30, 2023.

Depreciation of capital assets related to exploration and evaluation properties is being recorded in exploration and evaluation expenses in the consolidated statement of income (loss) and comprehensive income (loss), under depreciation. Depreciation of \$478,519 (\$545,919 for the nine months ended September 30, 2022) was expensed as exploration and evaluation expenses during the nine months ended September 30, 2023.

As of September 30, 2023, the amount of \$22,657,552 (\$7,522,085 as of December 31, 2022) of construction in progress is related to the Nalunaq Project and includes costs incurred on the site camp upgrade, surface infrastructure, construction of the process plant foundation, mobile equipment and critical spare parts. Equipment and infrastructure include components of the process plant such as the manufactured mill, grinding and gravity concentration circuit that will be shipped and assembled at site but are not yet available for use.

As at September 30, 2023, the Corporation had capital commitments, of \$46,753,582. These commitments relate to the development of Nalunaq Project, rehabilitation of the Nalunaq mine, construction of processing plant, purchases of mobile equipment and establishment of surface infrastructure.

The Corporation closed the Debt Financing on September 1, 2023 and consisting of:

6.1 Revolving Credit Facility

A \$25 million (US\$18.5 million) Revolving Credit Facility ("RCF") provided by Landsbankinn hf. and Fossar Investment Bank, with a two-year term and priced at SOFR plus 950bps. Interest is capitalized and payable at the end of the term.

The credit facility is denominated in US Dollars and the SOFR interest rate is determined with reference to the CME Term SOFR Rates published by CME Group Inc. The Landsbankinn hf. and Fossar revolving credit facility carries (i) a commitment fee of 0.40% per annum calculated on the undrawn facility amount and (ii) an arrangement fee of 2.00% on the facility amount where 1.5% is to be paid on or before the closing date of the facility and 0.50% is to be paid on or before the first draw down. The facility is not convertible into any securities of the Corporation.

The facility will be secured by (i) a bank account pledge from the Corporation and Nalunaq A/S, (ii) share pledges over all current and future acquired shares in Nalunaq A/S and Gardaq A/S held by the Corporation pursuant to the terms of share pledge agreements, (iii) a proceeds loan assignment agreement, (iv) a pledge agreement in respect of owner's mortgage deeds and (v) a licence transfer agreement.

6.2 Convertible notes

Convertible notes represent \$30.4 million (US\$22.4 million) notes issued to ECAM LP (US\$16 million), JLE Property Ltd. (US\$4 million) and Livermore Partners LLC (US\$2.4 million) with a four-year term and a fixed interest rate of 5%. The conversion price of \$0.90 per common share is the closing Canadian market price of the Amaroq shares on the day, prior to the closing day of the Debt Financing.

The convertible notes are denominated in US Dollars and will mature on September 30, 2027, being the date that is four years from the convertible note offering closing date. The principal amount of the convertible notes will be convertible, in whole or in part, at any time from one month after issuance into common shares of the Corporation ("Common Shares") at a conversion price of \$0.90 (£0.525) per Common Share for a total of up to 33,629,068 Common Shares. The Corporation may repay the convertible notes and accrued interest at any time, in cash, subject to providing 30 days' notice to the relevant noteholders, with such noteholders having the option to convert such convertible notes into Common Shares at the conversion price up to 5 days prior to the redemption date. If the Corporation chooses to redeem some but not all of the outstanding convertible notes, the Corporation shall redeem a pro rata share of each noteholder's holding of convertible notes. The Corporation shall pay a commitment fee to the holders of the convertible notes of, in aggregate, US\$4,484,032, which shall be paid pro rata to each noteholder's holding of convertible notes. The commitment fee is payable on the earlier of (a) the date falling 20 business days after all amounts outstanding under the Bank Revolving Credit Facility have been repaid in full, but no earlier than the date that is 24 months after the date of issuance of the notes; and (b) the date falling 30

Amaroq Minerals Ltd.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2023 and 2022

(Unaudited, in Canadian Dollars)

(thirty) months after the date of the subscription agreement in respect of the notes, irrespective of whether or not notes have converted at that date or been repaid.

The convertible notes will be secured by (i) bank account pledge agreements from the Corporation and Nalunaq A/S, (ii) share pledges over all current and future acquired shares in Nalunaq A/S and Gardaq A/S held by the Corporation pursuant to the terms of share pledge agreements, (iii) a proceeds loan assignment agreement, (iv) a pledge agreement in respect of owner's mortgage deeds and (v) a licence transfer agreement.

The convertible notes represent hybrid financial instruments with multiple embedded derivatives requiring separation. The debt host portion (the "Host") of the instrument is classified at amortized cost, whereas the aggregate conversion and repayment options (the "Embedded Derivatives") are classified at fair value through profit and loss (FVTPL).

The fair value of the convertible notes at inception was recognized at \$30.4 million (US\$22.4 million) and \$19.4 million (US\$14.3 million) embedded derivative component was isolated and determined using a Black Scholes valuation model which required the use of significant unobservable inputs. As of September 30, 2023 the Corporation identified the fair value of embedded derivative associated with the early conversion option to be \$19.2 million (US\$14.1 million). The change in fair value of embedded derivative in the period from September 1, 2023 to September 30, 2023 has been recognized in the statement of Income (loss) and comprehensive income (loss). The Host liability component at inception was recognized to be the residual amount of \$10.9 million (US\$8.1 million) which is subsequently measured at amortized cost.

6.3 Cost Overrun Facility

\$13.5 million (US\$10 million) Revolving Cost Overrun Facility from JLE Property Ltd. on the same terms as the Bank Revolving Credit Facility.

The Overrun Facility is denominated in US Dollars with a two-year term and will bear interest at the CME Term SOFR Rates by CME Group Inc. and have a margin of 9.5% per annum. The Overrun Facility carries a stand-by fee of 2.5% on the amount of committed funds. The Overrun Facility is not convertible into any securities of the Corporation.

The Overrun Facility will be secured by (i) bank account pledge agreements from the Corporation and Nalunaq A/S, (ii) share pledges over all current and future acquired shares in Nalunaq A/S and Gardaq A/S held by the Corporation pursuant to the terms of share pledge agreements, (iii) a proceeds loan assignment agreement, (iv) a pledge agreement in respect of owner's mortgage deeds and (v) a licence transfer agreement.

7. LEASE LIABILITIES

	As at September 30 2023	As at December 31 2022
	\$	\$
Balance beginning	729,237	763,913
Principal repayment	(53,583)	(50,722)
Balance ending	675,654	729,237
Non-current portion – lease liabilities	(597,145)	(657,440)
Current portion – lease liabilities	78,509	71,797

The Corporation entered into an office lease with a five year term on October 2020. The monthly rent is \$8,825 until March 2024 and \$9,070 for the balance of the lease. The Corporation has the option to renew the lease for an additional five-year period at \$9,070 monthly rent indexed annually to the increase of the

(Unaudited, in Canadian Dollars)

consumer price index of the previous year for the Montreal area.

8. SHARE CAPITAL

8.1 Nasdaq Main Market Listing in Iceland

Subsequent to the approval by the Central Bank of Iceland (the "FSA") and satisfaction of all Nasdaq Main Market requirements the Corporation transferred all depository receipts from the Nasdaq First North Growth Market to the Nasdaq Main Market with the first day of trading on September 21, 2023. The mainboard listing in Iceland do not affect any shares traded on AIM or the TSX-V.

9. STOCK-BASED COMPENSATION

9.1 Stock options

An incentive stock option plan (the "Plan") was approved initially in 2017 and renewed by shareholders on June 15, 2023. The Plan is a "rolling" plan whereby a maximum of 10% of the issued shares at the time of the grant are reserved for issue under the Plan to executive officers, directors, employees and consultants. The Board of directors grants the stock options, and the exercise price of the options shall not be less than the closing price on the last trading day, preceding the grant date. The options have a maximum term of ten years. Options granted pursuant to the Plan shall vest and become exercisable at such time or times as may be determined by the Board, except options granted to consultants providing investor relations activities shall vest in stages over a 12-month period with a maximum of one-quarter of the options vesting in any three-month period. The Corporation has no legal or constructive obligation to repurchase or settle the options in cash.

On July 24, 2023, the Corporation granted an on-hire incentive stock option award to a new senior employee of Amaroq. The option award gives the employee the right to acquire up to 19,480 common shares under the Corporation's stock option Plan. The option has an exercise price of \$0.77 per share and will vest on October 24, 2023. The option will expire if it remains unexercised five years from the date of the award.

The fair value of each option granted was estimated at the time of grant using the Black-Scholes option pricing model. Black-Scholes is a pricing model used to determine the fair price or theoretical value for a call or a put option based on the following average assumptions at the measurement date:

	September 30, 2023	September 30, 2022
Risk free rate	3.9%	2.4%
Expected life (years)	5 years	5 years
Volatility	68.1%	69.1%
Share price at date of grant	\$0.77	\$0.66
Fair value per option	\$0.46	\$0.39

The total share-based payment expenses related to the options and the amount credited to contributed surplus were \$6,042 (\$1,499,028 for the nine months ended September 30, 2022). The following table outlines the activity for stock options for the nine months ended September 30, 2023, and 2022:

Nine months ended September 30, 2023		Nine months ended September 30, 2022	
Number of options	Weighted average exercise price	Number of options	Weighted average exercise price

9.2 Restricted Share Unit

Conditional awards under the RSU

9.2.1 Description

Conditional awards were made in 2022 that gave participants the opportunity to earn restricted share unit awards under the Corporation's Restricted Share Unit Plan ("RSU Plan") subject to the generation of shareholder value over a four-year performance period.

The awards are designed to align the interests of the Corporation's employees and shareholders, by incentivizing the delivery of exceptional shareholder returns over the long-term. Participants receive a 10% share of a pool which is defined by the total shareholder value created above a 10% per annum compound hurdle.

The awards comprise three tranches, based on performance measured from January 1, 2022, to the following three measurement dates:

- First Measurement Date: December 31, 2023;
- Second Measurement Date: December 31, 2024; and
- Third Measurement Date: December 31, 2025.

Restricted share unit awards granted under the RSU Plan as a result of achievement of the total shareholder return performance conditions are subject to continued service, with vesting as follows:

- Awards granted after the First Measurement Date - 50% vest after one year, 50% vest after three years.
- Awards granted after the Second Measurement Date - 50% vest after one year, 50% vest after two years.
- RSUs granted after the Third Measurement Date - 100% vest after one year.

Amaroq Minerals Ltd.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2023 and 2022

(Unaudited, in Canadian Dollars)

The maximum term of the awards is therefore four years from grant.

The Corporation's starting market capitalization is based on a fixed share price of \$0.552. Value created by share price growth and dividends paid at each measurement date will be calculated with reference to the average closing share price over the three months ending on that date.

- After December 31, 2023, 100% of the pool value at the First Measurement Date is delivered as restricted share units under the RSU Plan, subject to the maximum number of shares that can be allotted not being exceeded.
- After December 31, 2024, the pool value at the Second Measurement Date is reduced by the pool value from the First Measurement Date (increased in line with share price movements between the First and Second Measurement Dates). 100% of the remaining pool value, if any, is delivered as restricted share units under the RSU Plan.
- After December 31, 2025, the pool value at the Third Measurement Date is reduced by the pool value from the Second Measurement Date (increased in line with share price movements between the Second and Third Measurement Dates), and then further reduced by the pool value from the First Measurement Date (increased in line with share price movements between the First Measurement Date and the Third Measurement Date). 100% of the remaining pool value, if any, is delivered as restricted share units under the RSU Plan.

9.2.1 Valuation

The fair value of the award granted in December 2022 is \$5,408,800 based on 80% of the available pool being awarded. A charge of \$1,347,000 was recorded during the nine months ended September 30, 2023.

10. EXPLORATION AND EVALUATION EXPENSES (RECOVERY)

Amaroq Minerals Ltd.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2023 and 2022

(Unaudited, in Canadian Dollars)

As at September 30, 2023, the balance receivable from Gardaq amounted to \$1,529,406 (\$nil as at December 31, 2022). This receivable balance represents the current balance of project management costs and exploration and evaluation costs incurred by the Corporation for six strategic minerals licenses transferred from Nalunaq A/S to Gardaq A/S. The exploration and evaluation costs incurred by the Corporation are transferred to Gardaq A/S from Nalunaq A/S in accordance with the respective clauses of the SSHA. (Note 3).

14.2 Marketing Activities in Iceland related to the Nasdaq Main Market Listing

In addition to Landsbankinn hf. acting as project manager and advisor on the admission to Nasdaq Main Market, the Corporation has engaged Fossar Investment Bank hf. ("Fossar") to assist in introducing Amaroq to investors, organizing investor meetings, and advising and analyzing potential effect the Admission has on the liquidity and formation of the share price of the Corporation.

Fossar is a related party of Amaroq as it is a company in which Sigurbjorn Thorkelsson, Non-Executive Director, is Chairman of the Board and indirectly controls over 30% of the capital. Amaroq has agreed to pay Fossar for their services \$25,000 (GBP15,000) and Amaroq will be responsible for any ancillary expenses on the planned engagement. The Engagement will end upon the completion of Admission.

The engagement with Fossar constitutes a related party transaction in accordance with AIM Rule 13. The Independent Directors, being the Amaroq Directors other than Sigurbjorn Thorkelsson, having consulted with the Corporation's Nominated Adviser, are confident that the terms of the engagement with the related party are fair and reasonable insofar as the Corporation's shareholders are concerned.

\$25,000 cost of engagement is included under Marketing and Industry involvement cost category under the General and Administrative expenses (Note 12) and as of September 30, 2023 the balance is fully settled.

14.3 Debt financing

Livermore Partners LLC ("Livermore") subscribed for US\$2.4 million in principal amount of convertible notes under the convertible note offering (the "Insider Participation"). The subscription by Livermore is considered to be a "related party transaction" for purposes of Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The Insider Participation is exempt from the formal valuation and minority shareholder requirements under MI 61-101 in reliance upon the exemptions contained in section 5.5(a) and 5.7(1)(a), respectively, of MI 61-101. The Corporation did not file a material change report more than 21 days before the expected closing date of the convertible note offering as the details of the convertible note offering and the Insider Participation was not settled until shortly prior to the closing of the convertible note offering, and the Corporation wished to close the convertible note offering on an expedited basis for sound business reasons.

For the purposes of the AIM Rules for Companies, Fossar, ECAM and Livermore are related parties of Amaroq. Fossar is a company in which Sigurbjorn Thorkelsson, Non-Executive Director of the Corporation, is Chairman of the board and indirectly controls over 30% of the capital. ECAM LP is an affiliate of GCAM LP, which owns a 49% interest in Gardaq A/S, an Amaroq subsidiary, and has appointed two directors to the subsidiary company board. Livermore is a company in which David Neuhauser, Non-Executive Director of Amaroq, is Managing Director.

As such, the elements of the debt financing with Fossar (US\$1.0 million off the senior debt term loans), Livermore Partners LLC (US\$2.4 million of the convertible notes), and ECAM LP (US\$16.0 million of the convertible notes) constitute Related Party Transactions in accordance with AIM Rule 13.

The Independent Directors, being the Amaroq Directors other than Sigurbjorn Thorkelsson and David Neuhauser, consider, having consulted with the Corporation's Nominated Adviser, that the terms of the transaction are fair and reasonable insofar as the Corporation's shareholders are concerned.

In September 2023, in accordance with Clause 11.2 of Revolving Credit Facility Agreement between

Amaroq Minerals Ltd.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2023 and 2022

Convertible notes	33,629,068	-	33,629,068	-

16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Corporation is exposed to various risks through its financial instruments. The following analysis provides a summary of the Corporation's exposure to and concentrations of risk at September 30, 2023:

16.1 Credit Risk

Credit risk is the risk that one party to a financial instrument will cause financial loss for the other party by failing to discharge an obligation. The Corporation's main credit risks relate to its amounts due from a related party. The Corporation performed expected credit loss assessment and assessed the amount to be fully recoverable.

16.2 Fair Value

Amaroq Minerals Ltd.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2023 and 2022

(Unaudited, in Canadian Dollars)

Financial assets and liabilities recognized or disclosed at fair value are classified in the fair value hierarchy based upon the nature of the inputs used in the determination of fair value. The levels of the fair value hierarchy are:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)
- Level 3 - Inputs for the asset or liability that are not based on observable market data (i.e., unobservable inputs)

The following table summarizes the carrying value of the Corporation's financial instruments:

	September 30, 2023	December 31, 2022
	\$	\$
Cash	53,655,954	50,137,569
Due from a related party	1,529,406	-

Escrow account for environmental monitoring	585,683	427,120
Accounts payable and accrued liabilities	(2,740,161)	(1,138,961)
Convertible notes	(29,794,898)	-
Lease liabilities	(675,654)	(729,237)

Due to the short-term maturities of cash, due from a related party, and accounts payable and accrued liabilities, the carrying amounts of these financial instruments approximate fair value at the respective balance sheet date.

The carrying value of the convertible note instrument approximates its fair value at maturity and includes the embedded derivative associated with the early conversion option and the host liability at amortized cost.

The carrying value of lease liabilities approximate its fair value based upon a discounted cash flows method using a discount rate that reflects the Corporation's borrowing rate at the end of the period.

16.3 Liquidity Risk

Liquidity risk is the risk that the Corporation will encounter difficulty in meeting obligations associated with financial liabilities. The Corporation manages this risk by managing its working capital and ensuring that sufficient cash is available. The following are the contractual maturities of financial liabilities as at September 30, 2023:

	September 30, 2023		
	< 1 year	2 – 5 years	Over 5 years
	\$	\$	\$
Convertible notes	29,794,898	-	-
Lease liabilities	78,509	597,145	-

Amaroq Minerals Ltd.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2023 and 2022

(Unaudited, in Canadian Dollars)

Accounts payable and accrued liabilities	2,740,161	-	-
	32,613,568	597,145	-

The Corporation has assessed that it is not exposed to significant liquidity risk due to its cash balance in the amount of \$53.7 million at the period end.

17. SUBSEQUENT EVENTS

17.1 New conditional Award under RSU Plan

On 13 October 2023, Amaroq made an award (the "Award") under the RSU Plan as detailed below. The Award consists of a conditional right to receive value if the future performance targets, applicable to the Award, are met. Any value to which the participants are eligible in respect of the Award will be granted as Restricted Share Units (each an "RSU"), with each RSU entitling a participant to receive common shares in the Corporation. Each RSU will be granted under, and governed in accordance with, the rules of the Corporation's Restricted Share Unit Plan.

Award Date	October 13, 2023
Initial Price	CAD 0.552
Hurdle Rate	10% p.a. above the Initial Price
Total Pool	10% of the growth in value above the Hurdle rate, not exceeding 10% of the Corporation's share capital. The number of shares will be determined at the Measurement Dates.
Participant proportion	Edward Wyvill, Corporate Development 10%
Performance Period	January 1, 2022 to December 31, 2025 (inclusive)
Normal Measurement Dates	First Measurement Date: December 31, 2023, 50% vesting on the first anniversary of grant, with the remaining 50% vesting on the third anniversary of grant. Second Measurement Date: December 31, 2024, 50% vesting on the first anniversary of grant, with the remaining 50% vesting on the second anniversary of grant. Third Measurement Date: December 31, 2025, vesting on the first anniversary of grant.
