

Electrician at Gold Mine Processing Plant [REF: PPELEC]

JOB DESCRIPTION

Position	<i>Electrician</i>	Rotation	<i>4 weeks on/4 weeks off</i>
Location	<i>Nalunaq Mine Processing Plant, Greenland</i>	Type	<i>Full-time, Rotation Basis</i>

COMPANY VALUES

- Leading through professionalism
- Innovative and agile
- Collaborative and caring
- Long term perspective
- Execute and deliver

OVERVIEW

We are seeking a skilled and certified Electrician with a valid Greenlandic ticket to join our team at Nalunaq Mine Processing Plant. This is a rotation-based position, working in remote and challenging environments. The ideal candidate will possess a strong technical background in industrial electrical systems, with experience in mining and processing facilities preferred.

MAIN RESPONSIBILITIES

- Perform installation, maintenance, and repair of electrical systems, including motors, transformers, circuit breakers, and control panels.
- Troubleshoot and resolve electrical issues to minimize downtime and ensure smooth operation of the processing plant.
- Conduct routine inspections of electrical equipment to ensure safety, compliance, and functionality.
- Work with instrumentation and control systems to maintain process automation and operational efficiency.
- Adhere to all safety regulations, including proper use of PPE and participation in safety drills and protocols.
- Maintain documentation of electrical systems, repairs, and updates in compliance with company standards and regulatory requirements.
- Collaborate with the engineering and maintenance teams to optimize equipment performance.
- Assist in electrical system upgrades, expansions, or modifications as needed.
